

The 1978 Proof Coin Set...

The 1978 Proof Coin Set...

... contains one coin of each denomination: a penny, nickel, dime, quarter, half dollar and dollar. Proof Coins are struck from specially prepared (non-silver) blanks. Each coin is struck twice with highly polished dies to assure a mirror-like finish. The San Francisco Assay Office produces and packages the sets, and each coin bears the "S" mint mark. The coins are sealed in a pre-cast plastic package which protects and displays the set. The 1978 Proof Coin Set is priced at \$9.00, which includes postage and handling.

Proof Coin Sets are produced and shipped through the end of the year of issue. Therefore, we will be shipping the 1978 sets through December 31, 1978. We ship orders as closely as possible to their order of receipt; but the vast majority of orders are received within the first month of the ordering period. If your order is not in the first group to be shipped, you will receive a postcard acknowledging your order and indicating when you can expect to receive your order.

The Mint accepts orders for Proof Coin Sets until the production capacity is reached, and acceptance of orders is conditioned upon our ability to meet the demand. At this time, we anticipate that we will be able to accept orders from April 3 to May 31, 1978. We recommend that you send your order as soon as possible. Your remittance will be deposited for safekeeping and, if we cannot honor your order, a refund will be made. Orders are not cancellable by the purchaser.
